Who Opens*

SAMSUNG  
Fingerprint Digital Door Lock

SHS-5230

## Convenient Features

- **Wide Touch Pad Screen**
- **Automatic Sliding Cover**  
The automatic sliding cover feature allows user-friendly access, making it more convenient.
- **Low Battery Indicator**  
Replace batteries when a 'beep' sound is heard during door access.
- **User-friendly Accessibility**

User Access Code

Biometric Access System

Mechanical Override Keys

## Enhanced Safety

- **Double Authorization Mode/Both Fingerprint and User Access Code**  
With double authorization mode set up, both user access code and fingerprint must be authenticated to open the door, strengthening security.
- **Fingerprint Marks are No Longer a Concern.**  
User access code will be pressed after press two random numbers, preventing intruders from checking the fingerprint marks left.
- **One Button-One Touch / Anti-theft Setup**  
When leaving, the user can set up the anti-theft function by simply pressing  button, preventing any tampering by creating a warning sound.

2 random numbers appear before entering user access code

Press the user access code

Impossible to guess user access code due to random fingerprint marks
